Highlights of Mexikos

8th day: Palenque

Palenque is the most impressive religious center of the Maya culture in Mexico. Vast buildings of bright stones rise in the middle of the jungle and give us a non-real vision.

9th day: On the way to Uxmal

The Maya culture will accompany us in the next days. Next station will be the great temple complex of Uxmal. A show "Light and Sound" in the Nunnery Quadrangle of Uxmal will bring to life the times of the ancient Maya.

10th day: Chichén Itzá

The visit of the complex of Uxmal is planned for the morning. In the afternoon we will visit the nearby temples of Chichén Itzá. The highlights of this most famous Maya city in Mexico are the pyramid of Kukulcán, the "warrior temple" with the sacrificial altar of Chak Mo'ol and the ball court for the ritual ball game of the Maya and other Mesoamerican cultures.

11th day: On the way to Cancun

Final point of our journey will be Cancun, the famous Caribbean city.

12th day: Day at the beach

This day is meant for recreation at the famous beach of Cancun. We passed 3000 years of different cultures from Olmecs to modern Mexico, more than 2000 Km of different landscapes from Vulcans of more than 5000m to lowlands below sea level in less than two weeks. Now we merit some relaxing.

13th day: Tulum

An alternative to another day on the beach is a short trip of 50 Km to the only Maya temple at a coast, to Tulum.

14th day: Return

We will start our return with a flight from Cancun to Mexico City, because all international flights from Mexico start there.
